## DETAILED ACTION

### *Claim Rejections - 35 USC § 112*

1. The following is a quotation of the first paragraph of 35 U.S.C. 112:
2. The specification shall contain a written description of the invention, and of the manner and process of making and using it, in such full, clear, concise, and exact terms as to enable any person skilled in the art to which it pertains, or with which it is most nearly connected, to make and use the same and shall set forth the best mode contemplated by the inventor of carrying out his invention.
3. Claims 13 and 28 are rejected under 35 U.S.C. 112, first paragraph, as failing to comply with the written description requirement. The claim(s) contains subject matter which was not described in the specification in such a way as to reasonably convey to one skilled in the relevant art that the inventor(s), at the time the application was filed, had possession of the claimed invention. See the reasons of record in the Office Action mailed on 29 December 2003 with respect to the rejection of Claim 13.
4. The following is a quotation of the second paragraph of 35 U.S.C. 112:
5. The specification shall conclude with one or more claims particularly pointing out and distinctly claiming the subject matter which the applicant regards as his invention.
6. Claims 5-13, 15, and 22-28 are rejected under 35 U.S.C. 112, second paragraph, as being indefinite for failing to particularly point out and distinctly claim the subject matter which applicant regards as the invention.
  - I. Regarding Claims 5-13, and 15, it is unclear what is meant by the references to Claims 3 and 4, as Claims 3 and 4 have been cancelled.

***Claim Rejections - 35 USC § 102***

7. The following is a quotation of the appropriate paragraphs of 35 U.S.C. 102 that form the basis for the rejections under this section made in this Office action:

8. A person shall be entitled to a patent unless –

- (a) the invention was known or used by others in this country, or patented or described in a printed publication in this or a foreign country, before the invention thereof by the applicant for a patent.

9. Claims 24 and 26 are rejected under 35 U.S.C. 102(a) as being anticipated by McMeeking et al. for the reasons of record in the Office Action mailed on 29 December 2003.

***Claim Rejections - 35 USC § 103***

10. The following is a quotation of 35 U.S.C. 103(a) which forms the basis for all obviousness rejections set forth in this Office action:

- (a) A patent may not be obtained though the invention is not identically disclosed or described as set forth in section 102 of this title, if the differences between the subject matter sought to be patented and the prior art are such that the subject matter as a whole would have been obvious at the time the invention was made to a person having ordinary skill in the art to which said subject matter pertains. Patentability shall not be negated by the manner in which the invention was made.

11. Claims 24 and 26 are rejected under 35 U.S.C. 103(a) as being unpatentable over McMeeking et al. for the reasons of record in the Office Action mailed on 29 December 2003.

***Allowable Subject Matter***

12. Claims 29-34 are allowed. See the reasons of record in the Office Action mailed on 29 December 2003.

***Response to Amendment***

- I. Applicant has implicitly traversed the section 112, first paragraph new matter rejection of the Office Action mailed on 29 December 2003. Since no specific reasons have been given, the rejection is maintained.
- II. In view of applicant's amendments and arguments, applicant traverses the section 102 and 103 rejections over McMeeking et al. Applicant argues that the Rao et al. article in Science antedates McMeeking et al. and evidences applicant's possession of the claimed invention as of the publication date of the Rao et al. article. With respect to Claims 1, 2, 5-11, applicant has cited support in Rao et al., and so rejections of these claims are withdrawn. Rejection of Claim 12 is withdrawn since McMeeking et al. does not appear to teach this claim. Rejection of Claim 22 is withdrawn since Rao et al. refers to the claimed system. Rejection of Claim 23 is withdrawn in view of applicant's amendment. Rejections of Claim 24 and 26 are maintained since McMeeking refers to zirconia systems and Rao et al. does not. Rejection of Claims 25 and 27 are withdrawn since they are supported by Rao et al. Rejection of Claim 28 is withdrawn since McMeeking does not appear to teach this claim.
